

# DORO LUNA® RETRACTOR SYSTEM

Compendium

### **CONFIGURATION CHARTS**

There are two configurations of the DORO LUNA® Retractor System available.

DORO LUNA® Retractor System – Standard System Item no. 1203.100	
System includes	Item no.
DORO COBRA® Flexible Rotary Arm 280mm (2 pcs)	1201.006
DORO® Retractor Sterilization Tray	1201.091
DORO LUNA® Quick-Clamp for Quick-Rail® (2 pcs)	1203.001
DORO LUNA® Coupling (4 pcs)	1203.002
DORO LUNA® Rod (2 pcs)	1203.003
DORO LUNA® Curve (2 pcs)	1203.004
DORO LUNA® Sterilization Tray	1203.091
DORO® Blade Set (2 sets)	3116-101

DORO LUNA® Retractor System – Compact System Item no. 1203.200	
System includes	Item no.
DORO COBRA® Flexible Rotary Arm 280mm (2 pcs)	1201.006
DORO® Retractor Sterilization Tray	1201.091
DORO LUNA® Quick-Clamp for Quick-Rail®	1203.001
DORO LUNA® Coupling (2 pcs)	1203.002
DORO LUNA® Rod	1203.003
DORO LUNA® Curve	1203.004
DORO LUNA® Sterilization Tray	1203.091
DORO® Blade Set (2 sets)	3116-101

### THE PERFECT COMBINATION

DORO LUNA® / DORO® QR3 bundles.

DORO LUNA® Standard Retractor System & DORO® QR3 Skull Clamp (item no. 1203.110) or DORO® QR3 Headrest System (item no. 1203.120).

DORO LUNA® Compact Retractor System & DORO® QR3 Skull Clamp (item no. 1203.210) or DORO® QR3 Headrest System (item no. 1203.220).

### STATE-OF-THE-ART

The DORO LUNA® Retractor System is our top-of-the-line retractor system used in neurosurgical applications as a brain tissue retractor and hand support. It is set up in the sterile field over sterile drapes and can easily and safely be adjusted for optimum skull access. It offers unparalleled flexibility. 6 degrees of freedom in shifting and tilting parts or even the whole system guarantee an unobstructed access to the surgical field at any time of the procedure. It is our most flexible and adaptable retractor system in the market. For retraction purposes, DORO COBRA® Flexible Rotary Arms can be mounted directly to any desired position on the DORO LUNA® Curves. These arms, in turn, are adaptable with macro- and micro blades of various styles.

The DORO LUNA® Retractor System is designed to be mounted to a 3<sup>rd</sup> Generation Quick-Rail®, which is featured at the DORO® QR3 Skull Clamp (item no. 1001.001), at the DORO® Multi-Purpose Skull Clamp (item no. 3020-50) and at the DORO® Skull Clamp Teflon® (item no. 3003-009).

### KEY FEATURES

### DETAILED FEATURES & BENEFITS

#### **FEATURES**

The DORO LUNA® Retractor System attaches directly to the Ouick-Rail® of DORO® Skull Clamps.

DORO LUNA® Quick-Clamp for Quick-Rail®. Form-fitting clamp design.

#### DORO LUNA® Curve

- an open, user friendly design.

#### DORO LUNA® Curve - long, over 300mm.

#### **DORO LUNA®** Coupling - double joint design.

DORO LUNA® Rod with Quick-Clamp/Coupling.

Designed of 100% stainless steel.

Sterilization Tray.

Available in two configurations.

Unique Product.

Compatible with DORO® Easy-Connect Navigation Adaptors.

Mix & Match: The DORO LUNA® Retractor System can alternatively attached to a DORO® Radiolucent Skull Clamp by means of Adaptor #1203.009.

Mix & Match: Combinable with the DORO COBRA® Quick-Clamp for Aluminum or Radiolucent Quick-Rail®. Adaptors #1201.021 (Alu) or #1201.022 (RDL) required.

#### **BENEFITS**

Easy and fast to set up and use.

Grants a secure, strong and stable connection. Can be securely mounted over several layers of drape. Eliminates the need of bulky C-Clamps.

The large and wide open curve provides a continuous and seamless interface access for attaching accessories, such as DORO COBRA® Flexible Rotary Arms or skin hooks. Provides unobstructed access to the surgical field. One can be used as a comfortable hand rest, the other for accessories.

Provides full reach across the patient's head.

Provides remarkable flexibility. DORO LUNA® Curve and/or Rods can be positioned in any desired direction. Allows the DORO LUNA® Curve to be positioned parallel to the floor, independent of the skull clamp position.

Behaves as a free-moving pivot for incredible flexibility for height and angle adjustments.

Premium material selection for multiple sterilization cycles. Innovative design results in a light weight.

Provides space for the safe storage and sterilization of the instruments.

Standard and Compact. For a complete listing of the different configurations please see the configuration charts at page 2.

No competition. An excellent alternative to Leyla, Greenberg or any other open surgical brain retractor system.

No loss of functionality.

This enhances the variability of the DORO LUNA® considerably. All the beneficial features of the retractor system are now available within imaging supported procedures. Furthermore, the adaptor allows the surgeon to work with only one retractor system, maintaining his routine and workflow from non-imaging procedures.

These adaptors allow the direct attachment of DORO COBRA® Flexible Rotary Arms to the Quick-Rail® of a DORO® QR3 Aluminum or Radiolucent Skull Clamp, minimizing the obstruction of the surgical field.

#### **ENHANCE IT**

with DORO COBRA® and DORO LUNA® Quick-Rail® Adaptors. Get all the details on pages 10 & 11.

## **KEY FEATURES**

DORO COBRA® Flexible Rotary Arms	
Description	Item no.
DORO COBRA® Flexible Rotary Arm 200 mm	1201.005
DORO COBRA® Flexible Rotary Arm 280 mm	1201.006
DORO COBRA® Flexible Rotary Arm 350 mm	1201.007
DORO COBRA® Flexible Rotary Arm 420 mm	1201.008

to DORO LUNA® curve attachment. Available in four length.

### DETAILED FEATURES & BENEFITS

#### **FEATURES**

Cleverly devised mechanics.

Click-mount on DORO LUNA® Curve.

Overall dimensions of the spatula adaptor minimized.

Thumb screw lock.

Rotary body.

Sterilization Tray.

Designed of 100% stainless steel.

Quick Connector holds third party blades (DORO® Adaptor for flat brain spatulas #1201.046 required).

Broad variety of DORO® Blades available.

#### BENEFITS

Allows precise and fine repositioning of the arm under tension, even after multiple repositionings.

Arm stays at DORO LUNA® Curve while adjusting rotation of arm.

Minimized obstruction in the surgical field.

No tools required for attachment and rotation of arm. Easier and faster to use.

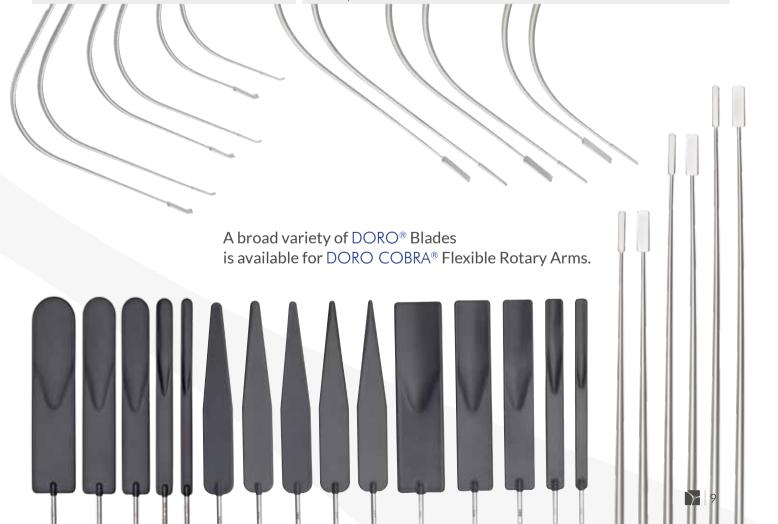

Provides 360 degree rotation while mounted for precise and optimum positioning.

 $Provides\, space\, for\, safe\, storage\, and\, sterilization\, of\, the\, instruments.$ 

Premium material selection for multiple sterilization cycles.

Third party blades can be used in combination with DORO COBRA® Flexible Rotary Arms.

DORO® Blades with a non-stick and non-reflective surface in different shapes and sizes (conical, round, square). DORO® Micro Blades in different shapes and sizes (straight, serrated, hooked). All DORO® Blades fit the quick connector of DORO COBRA® Flexible Rotary Arms.

### ENHANCE THE VARIABILITY

DORO LUNA® Quick-Clamp for Radiolucent Quick-Rail®

This adaptor will enhance the variability of the DORO LUNA® considerably. The DORO LUNA® Quick-Clamp for Radiolucent Quick-Rail® enables the DORO LUNA® Retractor System to be mounted to a DORO® Skull Clamp Radiolucent. This brings all the beneficial features of our flagship retractor system to imaging supported procedures. When imaging is required during surgery, the whole system can be temporarily demounted by loosening just two thumbscrews. The adaptor allows the surgeon to work with only one retractor system, maintaining his routine and workflow from non-imaging procedures.

DORO LUNA® Quick-Clamp for Radiolucent Quick-Rail® Item no. 1203.009

### UNFOLD THE FULL POTENTIAL

#### DORO COBRA® Quick-Clamps for Quick-Rail®

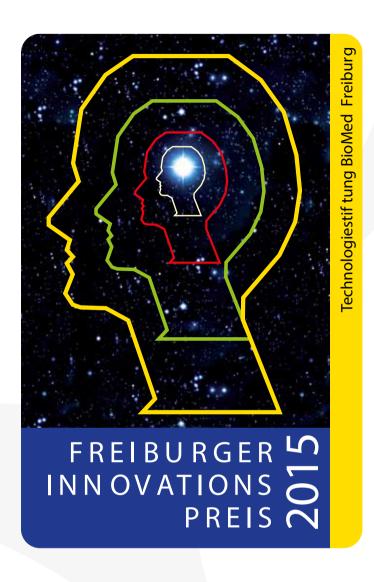

These adaptors allow the direct attachment of DORO COBRA® Flexible Rotary Arms to the Quick-Rail® of the DORO® QR3 Aluminum or Radiolucent Skull Clamp. This minimizes the obstruction of the surgical field, making it the tool of choice when maximum visibility is needed. They unfold the full potential of the DORO LUNA® Retractor System by allowing mixed set ups, providing the best set up solution depending on the particular situation. This may be of particular interest if budgets are limited.

DORO COBRA® Quick-Clamp for Aluminum Quick-Rail® Item no. 1201.021

WINNER OF THE 2015 FREIBURGER INNOVATION AVARD
